

# CRACK FILLER

## PRODUCT DESCRIPTION

Emirates Crack Filler is a flexible acrylic emulsion-based filler, engineered to fill joints and cracks providing a matt finish.

## PRODUCT FEATURES

- Water-based
- Excellent adhesion
- Excellent flexibility
- Low VOC
- Minimal shrinkage

## RECOMMENDED USE

This product is recommended for applications on cementitious surfaces: Concrete and cement plaster.

\*Used as a filler for interior and exterior applications.

## TECHNICAL SPECIFICATIONS

|                            |   |
|----------------------------|---|
| Color                      | Off White   |
| Finish                     | Matt  |
| Spreading Rate             | Varies according to the requirements and the joint cavity |
| Volume Solids (ASTM d2697) | 62 ± 2 %  |
| Specific Gravity           | 1.45 ± 0.05   |
| Dry Film Thickness         | Varies according to the requirements and the joint cavity |
| Wet Film Thickness         | Varies according to the requirements and the joint cavity |
| Packaging Size             | 3.6L + 18L  |
| Flash Point                | Water Based   |

### APPLICATION DATA

|                    |                             |
|--------------------|-----------------------------|
| Application Method | Scraper, Putty knife, Blade |
|--------------------|-----------------------------|

|         |                     |
|---------|---------------------|
| Thinner | Ready to use, Water |
|---------|---------------------|

### SURFACE PREPARATION

The surface must be clean, dry and free from oil, grease, dust and loose particles prior to application.

### DRY TIME

|               |                  |
|---------------|------------------|
| Dry to Recoat | 48 hours minimum |
|---------------|------------------|

\*Based on temperatures at 30 degrees Celsius.

\*Humidity, air movement, film thickness and number of coats may impact dry time.

### RECOMMENDED SYSTEM

|                       |         |
|-----------------------|---------|
| Emirates Crack Filler | 2 Coats |
|-----------------------|---------|

### HEALTH & SAFETY

*Water based paints are generally quite safe when handled with precaution, we highly recommend you follow your local safety regulations. Avoid inhalation of vapors and paint mist by painting in a well-ventilated area with a suitable mask. As a general rule, please avoid skin and eye contact by wearing the appropriate protective gear. However, if spillage occurs please wash with water. In the case of eye contact and/or ingestion seek medical attention immediately.*

---

### STORAGE & HANDLING

We highly recommend storing our paint in proper storage conditions as per your local regulations. Keep the paint container sealed and away from direct sunlight and extreme temperatures. Do not keep paint material near any ignition sources. Do not return the half or unused material back to the original container containing the supplied paint to avoid contamination. Handle with care and mix well before use.

---

### SHELF LIFE

\*For best results, please use within 18 months of the production date.

\*Shelf life can be highly affected by storage conditions, in particular, the method of sealing the container.

---

### DISCLAIMER

*The data provided is based on our present state of knowledge and is intended to provide general information about our product and its uses. Emirates Paints will not be responsible for any claims after the product had been used without proper testing. Any existing industrial property rights must be observed.
